

SAFETY DATA SHEET

1. IDENTIFICATION OF THE PRODUCT AND OF ITS MANUFACTURER:

- 1.1 Name of the product: DETERGENT FOR IMITATION LEATHER.
1.2 Manufacturer: INCO S.N.C di SASSATELLI SILVANO & C. – via del Fiffo n.5 – 40060
PIANORO (BO) – TEL. 051/77.60.10 – 77.63.97 – TELEFAX 051/77.48.97

2. IDENTIFICATION OF THE INGREDIENTS

- 2.1 Chemical composition (according to EEC norm 89/542):

SOAPS	Less than 1.25%
PHOSPHATES	1.25 – 3.75%
2-BUTOXYETHANOL	2.0%
SUSPENDING MEDIA	less than 1.25%
ESSENCES	0.025%
WATER	as needed to get 100%

3. IDENTIFICATION OF THE DANGERS

- 3.1 – The dangerousness of the product is linked to its alkalinity degree and to the presence of 2-Butoxyethanol. The main cause of danger is given by the possibility that the product is discharged into surface watercourses without preventative treatment.

4. FIRST AID MEASURES

- | | |
|---------------------|---|
| 4.1 - INGESTION: | immediately drink abundant water. Call a doctor |
| 4.2 – INHALATION: | immediately go to open air. Call a doctor |
| 4.3 – SKIN CONTACT: | wash away with abundant water |
| 4.4 – EYE CONTACT: | wash away with abundant water for 15mins.
should trouble persist, consult a specialist for treatment |

5. FIRE MEASURES

- 5.1 - No particular risk
5.2 – Recommended fire-extinguishing means: C₂, foam, powders

6. STEPS TO TAKE IN CASE OF ACCIDENTAL DAMAGE

- 6.1 – Leakage on the ground: collect by means of absorbing material and put away in deposit area.
6.2 – Do not let the product contaminate underground and surface waters.

7. PRODUCT HANDLING AND STOCKING

- 7.1 – Avoid contact with eyes and skin
7.2 – Incompatible substances: strong oxidants
7.3 – Stock requirements: none in particular.

8. EXPOSITION CONTROL – PERSONAL PROTECTION

- 8.1 - Control the concentration of 2-Butoxyethanol in the environment
- 8.2 – Use protection gloves
- 8.3 – Use protection goggles
- 8.4 – use clothes suited to body protection

9. CHEMICAL – PHYSICAL FEATURES

- 9.1 Appearance : liquid
- Colour : fluorescent green
- Smell : slightly perfumed
- PH : 1% solution : 10.5
- Nominal concentration in actives : 4.9%
- Boiling point : higher than 100°C
- Flash point : higher than 100°C
- Auto-flammability : none
- Explosion features : none
- Water solubility : total

10. STABILITY AND REACTIVITY

- 10.1 – Do not warm up the product beyond 50°C
- 10.2 – Do not let the product get in contact with strong oxidants
- 10.3 – Decompression dangers : none

11. TOXICOLOGICAL DATA

- 11.1 Oral Toxicity : the product may cause damages to the digestive system, due to its alkalinity and to the presence of 2-Butoxyethanol
- 11.2 One single prolonged exposition to the product don't cause skin adsorption in dangerous quantities

Here below are the toxicological data of 2-Butoxyethanol (present in this product in the measure of 2%):

- LD 50 oral (rat) : 1.500mg/Kg.
- LD 50 skin (rabbit) : 400mg/Kg.
- TLV – TWA : 200ppm

12. ECHOLOGICAL INFORMATION

- 12.1 – Biodegradability of the surfactants: higher than 90%
- 12.2 – Indications for the re-flowing waters: treat with active carbons
- 12.3 – Use according to good working practices
- 12.4 – Do not dispose the product in the environment

13. DISPOSAL

- 13.1 – Product : in compliance with enforcing laws (e.g. by incinerator)
- 13.2 – Bottles : wash with water, conveying to a purification pipe system. The washed bottle can be sent to the incinerator or to a recycling station.

14. TRANSPORT DATA

14.1 Data not available

15. INFORMATION ABOUT REGULATIONS

15.1 – Risk phrases : none

15.2 – Symbol : none

15.3 – Precaution advice : none

16. ADDITIONAL INFORMATION

16.1.1 – The information included in the present data sheet are based on our current knowledge and on the EEC regulations. The product must not be used for purposes other than what specified in section 1. It's responsibility of the final to take all the necessary steps to comply with national and local regulations.
